

## **Project Planner/Utility Engineer**

Utility Services of Alaska, Inc.

Providing administrative support to  
CUC and GHU

The Project Planner/Utility Engineer performs engineering and technical work and is responsible for managing the Utility's capital project planning and scheduling process. Typically this position will allocate approximately 25% of work hours to Project Planning and 75% of work hours on Engineering and other technical duties. This position reports directly to the Engineering Manager.

Utility Services of Alaska is looking for an individual with the following qualifications:

- Bachelor's degree in engineering, construction management, or computer science required.
- 1 to 3 years of relevant experience preferred.
- Valid Alaska Driver's License.
- Proficient use of AutoCAD and Microsoft Office.
- Experience in the use of Bentley WaterGEMS, or other hydraulic modeling package.

Applicant must be able to work independently, be dependable, flexible, have a positive attitude and able to work well in a fast paced, high-energy environment.

This is an exempt position that requires a minimum of 40 hours per week, Monday-Friday, 8:00 a.m. to 5:00 p.m., with hours in excess of 40 per week as needed. Pay DOE/excellent benefit package includes retirement plan, health insurance, vacation, and holidays.
